

WE NEED YOU TO HELP US GET THE LEAD OUT

HOW?

Please complete the short survey via the QR code below, our website, complete a paper copy here, or contact us at the Village of Covington.

WHAT?

We are currently working to identify and catalog all service lines, including those in your home. To limit costs and disruption to residents, we need your help identifying your home's service line, which connects your residence to the main water distribution pipes.

WE NEED YOU TO HELP US GET
THE LEAD OUT

For more information contact Ohio EPA Lead or the Village of Covington.

VILLAGE OF COVINGTON

1 South High Street, Covington, OH 45318

admin@villageofcovington.com | phone: (937) 473-3420 | www.villageofcovington.com

Question 1: Customer Contact information (write in). Please return to the Village of Covington.

- Account number: _____
- Name: _____
- Address: _____
- Email address and/or phone (if applicable): _____

Question 2: Were you able to find your drinking water service line? **Circle:** (YES or NO)

Locate the water service line coming into your home/building. The service line comes into your building from the street. It is typically located in a utility room on the lowest level of the building or in a crawl space. The service line will be connected to the water meter, if you have one. Identify a test area on the pipe between the point where it enters the building and the inlet valve/meter. If the pipe is covered or wrapped, expose a small area of metal.

Question 3: Were you able to perform a scratch test? **Circle:** (YES or NO)

Scratch test instructions: Use the coin, key, or another tool to carefully scratch the pipe (like you would a lottery ticket). If your line is painted, you may need sandpaper to clear a small area.

Question 4: What was the color result after the scratch test?

- ☐ Shiny and silver – Lead
- ☐ Copper colored (like a penny) – Copper
- ☐ Dull and gray – Galvanized
- ☐ Visibly plastic (White and rigid) – Plastic

Question 5: Were you able to perform a magnet test? **Circle:** (YES or NO)

Magnet test instructions: Place the magnet on the pipe.

Question 6: What was the result of the magnet test?

- ☐ The magnet does not stick to the pipe
- ☐ The magnet sticks to the pipe

Question 7: Include Additional Information: _____
